Refrigeration Solutions

*Celebrating
70 Years of Service*

2008 PRICE LIST Cabinets & Merchandisers

REVISION A

Effective August 2, 2008 to February 15, 2009

See the inside front cover for a list of energy saving features and options on Master-Bilt equipment

MB MASTER-BILT®

Refrigeration Solutions

Because energy savings is an ever-increasing concern, Master-Bilt strives to make our equipment as efficient as possible. That's why we initiated our Energy Saver program to help you quickly identify features that serve your efficiency needs. Below is a list of features and options included in the program. Visit www.master-bilt.com/products/energy_saver.htm for more information.

Feature	Energy-Saving Function	Where Used
Demand defrost	Initiates electric defrost heaters only as needed	As part of the optional Master Controller electronic control system on walk-ins
Electric expansion valve	Highly efficient valve eliminates need to maintain a high head pressure (head pressure control valve eliminated also) allowing a lower head pressure and condensing temperature. A compressor operating at a lower condensing temperature yields higher capacity with less energy input.	As an integrated part of the optional Master Controller system for walk-ins
Reverse cycle defrost	A reverse cycle valve reverses the flow of high temperature refrigerant through evaporator coil, heating along its entire length and eliminating frost buildup. Results in an 80% decrease in defrost energy usage as well as a major reduction in defrost time.	An option used in conjunction with the Master Controller on walk-ins
Electronic lighting	T8 lighting with electronic ballasts uses less electricity than electromagnetic ballasts. Electronic lamps and ballasts run cooler reducing heat buildup in the refrigerated space.	Numerous cabinets and glass door walk-in freezers
Greenheat™ ASM-115 anti-sweat module	Modulates glass door and frame heaters that evaporate condensation. Heaters are only energized as needed.	An option on glass door walk-in freezers
MBWA-1 digital alarm/light management system	Door open alarm prevents door from being left open. Optional light management system automatically turns off lights after a programmed interval.	An option on walk-in coolers and freezers
Permanent Split Capacitor (PSC) Fan Motors	Amount of torque and current required to start PSC motors is low, making them more efficient. PSC motors run cooler, reducing heat load to refrigerated space which makes the compressor run less.	Optional on single phase walk-in unit coolers and standard on condensing units
5" and 6" thick panels	Thickness of panels produces a higher R-factor and energy efficiency required by California Energy Code	An option on walk-in coolers and freezers
MRS & DRS multi-compressor remote refrigeration systems	Since these systems are remote, the heat produced by multiple condensing units is removed from the kitchen or sales space reducing the air conditioning load and energy bill	Walk-ins and cabinets with remote refrigeration systems

*BTUs rated at 90°F air entering condenser.

**Requires part #39-01084 (buck boost transformer) to make supply voltage 230V when only 208V is available.
Add \$1111 for this part (shipped loose).

NOTES:

- M-Series models with 134a and 404A compressors are shipped with P.O.E. oil.
- B-Series models with 404A compressors are shipped with P.O.E. oil.
- Low temp. R-22 units with demand cooling available with Discus compressors only.
- All "M" units include low ambient kit (crankcase heater, head pressure control valve) as standard feature.
- Other voltages and refrigerants available, please consult factory.
- B-Series hermetic low temp models available. Consult factory for details.

LIMITED ONE-YEAR PARTS & LABOR WARRANTY FOR CABINETS, LIMITED ONE-YEAR PARTS & 18-MONTH LABOR WARRANTY FOR ATMC & ATMC-D SERIES MILK COOLERS

Master-Bilt Products (the "Company") warrants to the original purchaser-user that its refrigeration equipment, at the time of delivery, will be free from defects in material and workmanship. Master-Bilt will bear the reasonable and customary labor expense to repair or replace any component part (including said part) found to be defective under the terms and conditions as outlined under Master-Bilt's standard one (1) year parts warranty. Master-Bilt will reimburse said labor expenses to the original purchaser only if after evaluating the original service invoice submitted by the original purchaser-user Master-Bilt determines that this warranty applies. The labor warranty shall apply only to self-contained equipment installed by authorized or approved Master-Bilt dealers, distributors, service companies or refrigeration contractors. The labor warranty does not cover the cost (parts or labor) of installation, start-up, normal maintenance, or normal control adjustment. Your local compressor supplier should exchange the compressor at no charge during first year warranty. Written notice of a claim under this Warranty must be received by the Company within ONE YEAR from the date of installation but no longer than ONE YEAR AND THREE MONTHS from shipment. All claims submitted must have the equipment serial number on the claim.

Any defects caused by misapplication, abnormal use or misuse, lack of or improper maintenance, damage by third parties, alterations, acts of God; failure to follow installation, maintenance or safety instructions or any other event beyond the control of the Company will not be covered under this Warranty.

The obligation of Master-Bilt shall be limited to repairing or replacing (at the option of the Company) any part, which is defective in the reasonable opinion of the Company. The cost of service labor reimbursed will be based on straight-time rate and reasonable time for the repair of the defect.

THIS WARRANTY IS EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

In no event shall the Company be liable for loss of use, revenue or profit or for any other indirect, incidental, special or consequential damages including, but not limited to, food spoilage or product loss.

This warranty shall apply only within the continental United States, its territories and possessions, Canada and Mexico.

EXTENDED FOUR-YEAR COMPRESSOR REPLACEMENT WARRANTY (OPTIONAL ON ATMC & ATMC-D SERIES MILK COOLERS)*

The Company warrants to the original purchaser-user that it will replace the compressor on the Equipment if found, in the reasonable opinion of the Company, to be defective in material or workmanship if written notice is received within five years from date of shipment.

Defective conditions caused by abnormal use or misuse, lack of or improper maintenance, damage by third parties, alterations, acts of God, failure to follow installation, maintenance or safety instructions or any other event beyond the control of the Company will not be covered under this Warranty.

The Compressor Replacement Warranty does not apply to any part of the equipment other than the compressor. The purchaser-user will have the sole responsibility and bear all expenses of removing and returning the defective compressor to the Company as well as the cost of reinstalling the replacement compressor. The Company may satisfy its obligations hereunder by supplying a replacement compressor, which is reasonably similar in design and capacity.

THIS WARRANTY IS EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

In no event shall the Company be liable for loss of use, revenue or profit or for any other indirect, incidental, special or consequential damages including, but not limited to, losses involving food spoilage or product loss.

This Compressor Replacement Warranty shall apply only within the continental United States, its territories and possessions, Canada and Mexico.

REPLACEMENT PART WARRANTY

Master-Bilt warrants to the original purchaser-user that all parts purchased after the first year warranty period will be warranted for 90 days from invoice date.

Condensing Unit Features

STANDARD COMPONENTS

All components pre-wired and mounted except as noted. Components may vary depending on horsepower and application. Consult our factory for verification of standard and optional components.

Component	Built-up B-Series	High Ambient M-Series
• Liquid line and suction line vibration absorbers (eliminators) for semi-hermetic units only	✓	✓
• Adjustable dual pressure control	✓	
• Head pressure control (flooding valve)	✓	✓
• Preset non-adjustable high pressure control and preset non-adjustable low pressure control		✓ *
• Corrosion-resistant hinged weather hood with lockable snap-down hood latch for easy installation and service access	✓	
• Heavy gauge, galvanized steel mechanically-fastened weather hood		✓
• Suction line filter	✓	
• Heavy-duty 12 gauge galvanized steel legs	✓	
• Heavy-duty angle leg base		✓
• Pre-wired electrical control panel	✓	✓
• Circuit breaker	✓	
• Crankcase heater	✓	✓
• Liquid line filter/drier	✓	✓
• Sight glass	✓	✓
• Liquid and suction line kit with service valve	✓	✓
• Liquid line solenoid valve (shipped loose)	✓	
• Generously-sized condenser	✓	✓
• Large liquid receiver (good for maximum 250 ft. line run, 100 ft. in M-Series units)	✓	✓
• Defrost heater contactor (when required)	✓	✓
• Compressor contactor	✓	✓
• PSC fan motors	✓	✓
• Extended four year limited compressor warranty (optional on ATMC & ATMC-D series milk coolers)	✓	✓
• Defrost timer standard on BEL and TEL series merchandisers	✓	✓
• Solenoid valve(s) standard on MDT, BEM/BEL and TEM/TEL series	✓	✓
• Rotalock suction service valve		✓
• Rifled tubes in condenser to add turbulence		✓
• Liquid line shut-off valve for easy change of filter		✓

*Preset high pressure control and preset low pressure control are non-adjustable in medium temp M-series units. The low pressure control is adjustable in low temp units.

Terms Of Sale

- 1. PRICES.** This list supersedes all other price lists. Master-Bilt reserves the right to change the price of the equipment without notice. All quotations for equipment shall be void if not accepted within 30 days.
- 2. DELIVERY.** Shipping or delivery date is approximate. Seller will not be liable for failure to deliver due to strikes, supplier's delays, changes requested by buyer or any causes beyond Master-Bilt's control.
- 3. SHIPMENTS.** When possible, requested carrier will be used. Master-Bilt, however, reserves the right to ship via any responsible carrier. Shipping charges are payable by consignee and any claims arising as to such charges shall be resolved between the carrier and consignee. All prices are F.O.B. factory.
- 4. HANDLING CHARGES.** Handling charges of \$35.00 are applicable for all cabinets shipped from Master-Bilt off-site warehouses.
- 5. DAMAGE.** Claims for damage in transit must be made by the consignee with the carrier. Master-Bilt assumes no responsibility for damages while in transit.
- 6. TAXES.** Federal, state, city sales or use taxes are not included with these prices.
- 7. CANCELLATIONS/RETURNED GOODS.**
 - A. STOCK ITEMS.** All cancelled orders and returned goods will be assessed a minimum of 25% cancellation or restocking charge. Merchandise may not be returned without written authorization from the Seller. Requests for return must be made within 90 days after shipment. Return authorizations issued are valid for 30 days. Products must be returned in their original factory packaging with freight prepaid. They shall not have been used and must be in the same condition as originally shipped by Master-Bilt.
 - B. NON-STOCK ITEMS.** Orders for custom or modified units cannot be cancelled or returned.
- 8.** All orders not shipped within 60 days of order date are subject to storage charges and/or price increases.
- 9. WARRANTY.** See p. 34 for Master-Bilt warranty details.
- 10.** Possession of price list does not constitute intent to sell.
- 11.** Storage charges are applicable to any cabinet or walk-in that does not ship within two weeks of completion. Charges are calculated at \$25.00 per week per cabinet or, for walk-ins, \$25.00 per week per skid of panels or crated materials.

Special Considerations

- 1. FREIGHT CLASSIFICATIONS.** All cabinets and options (shipped loose) shown in this price list are class 85. Condensing units are class 92.5. **NOTE: Classifications are based on the use of Master-Bilt specified carriers. Third party classifications and rates may vary.**
- 2. 50 CYCLE CABINETS.** Please consult our factory for 50 cycle electrical needs.
- 3. NO UPCHARGE ON MASTER-BILT STANDARD BLACK COLOR FINISH.** Applies to cabinet exterior only on cabinets and merchandisers except for Coldin IG and IG-C models, the BGR-14 model and cabinets with a standard stainless steel finish. Please consult our factory for other special paint requirements.
- 4. OFF-SITE WAREHOUSING.** Shipments of cabinets and step-ins originating from off-site Master-Bilt warehouses will include a \$35.00 handling fee per piece plus applicable freight/associated fees.
- 5. STORAGE CHARGES.** Completed orders placed on shipping hold are subject to a storage charge of \$25.00 per piece per week.
- 6. MINIMUM INVOICE AMOUNT.** A minimum invoice of \$40.00 applies to all orders.
- 7. CREDIT CARDS ACCEPTED.** Master-Bilt proudly accepts the following:
